

GGP300/300/75PI-E Grout Plant

- Hydraulic reversing and Hydraulic drive for vertical grouting pump;
- Grouting pressure and output are step-less adjustable;
- Using rectangular agitator, makes the plant has compact structure, small size;
- With high speed and low speed, by rotating ball valve switch;
- with function of record and display grouting pump reciprocating times by a counter;
- Mixer and agitator switch is a squeeze handle that is easy to operate and reliable;

Description	Data
Grout Station model	GGP300/300/75PI-E
Dimensions	2330x1260x1790mm
Weight	1125kg
Mixer	
Capacity	300L
Output	4.5m ³ /h
Power	7.5Kw, 1450rpm,50Hz,380V
Rated Rev	1450rpm
W/C	≥0.5~1
Agitator	
Capacity	300L
Rated Rev.	36rpm
Power	1.5KW, 50Hz,50HZ ,380V
Pump	
Output and pressure	0-75L/min,0-50Bar(high-speed)
	0-38L/min ,0-10MPa(low-speed)
Power	11kw, 50Hz,380V
